

💡 MoinMoin 1.9.11 is out, released 2020-11-08!

Contains **urgent security fixes, some bug fixes and bundled software updates.**

Changelog: 🌐 <https://github.com/moinwiki/moin-1.9/blob/1.9.11/docs/CHANGES#L13> - **MUST READ!**

## General Releases

Download: 🌐 MoinMoin 1.9.11 tar.gz ( 🌐 gpg signature)

Please check your download:

- see 🌐 <http://master.moinmo.in/InstallDocs> "Verify the integrity of your downloaded file" for instructions
- SHA256 checksum (sha256sum):  
02be31d55f39d4fe0c6253df8b49e01b76d095634cbd1b56d185f66e1e0c3cf5
- signed with gpg key of tw@waldmann-edv.de (primary key ID 9F88FB52FAF7B393 )

## Repositories

- 🌐 <https://github.com/moinwiki/moin-1.9> - stable / production releases
- 🌐 <https://github.com/moinwiki/moin> - unstable / alpha quality at best

## Installation from scratch

Read (all docs can be found in the download archive):

- docs/INSTALL.html (this is a copy of 🌐 the InstallDocs page made at release time)
- docs/CHANGES - important changes, make sure you read at least the stuff marked as HINT

⚠️ If you read any online docs, make sure they are written for the version of moin you want to use.

## Upgrading from previous versions

Read (all docs can be found in the download archive):

- docs/CHANGES - important changes, make sure you read at least the stuff marked as HINT
- docs/UPDATE.html - generic update procedure
- docs/INSTALL.html - if you need more information

⚠ If you read any online docs, make sure they are written for the version of moin you want to use.

Below are some "how-to" guides that may help:

- Thomas's Guide to Upgrading from 1.5 to 1.6
- Rick's Guide to Upgrading from 1.5 to 1.6
- Rick's Guide to Upgrading from 1.6 to 1.7
- Rick's Guide to Upgrading from 1.7 to 1.8
- Rick's Guide to Upgrading from 1.8 to 1.9

## Useful Links

- MoinMoinExtensions - a list of additional MoinMoin plugins; including Themes, Actions, and Parsers.
- MoinMoinBugs - Find known issues.
- MoinMoinPackages - pre-built packages for many systems, like Gentoo, Debian, Mandrake or FreeBSD.
- VirtualMachines - ready to run virtual machines with MoinMoin
- if you encounter bugs at the http server / WSGI interfacing level, have a look at `werkzeug.contrib.fixers` module (see `MoinMoin/support/`)
